3. Always

If you need to find your keys:

1. They are right where I put them every time I come home.
2. I am sure I left them on the kitchen counter.
3. I haven't seen them all day.

Which number do you have the most of for answers? 1, 2 or 3's?

If you got mostly 1's: You Are Organized!

You like to be able to find things with ease and know where to put things back. If someone needed your credit card statement from 4 months ago you would know exactly where it is and get it in less than 5 minutes. If a room gets cluttered with stuff you feel a little uneasy and need to declutter as soon as possible. You probably own a label maker and use it often. You want things to be done in a timely fashion and with little mess. You are the person people go to, to ask for organizing tips and how to stay on track.

If you got mostly 2's: You are On The Fence!

You are someone who likes their house to feel like a home, a lived in feeling. However, you like to have things organized but not to the point it is labelled and in matching bins. You try your best to stay organized and clutter free but it sometimes gets away from you. Your home is cozy and in most rooms you will find the odd thing that does not belong in it. You have a busy life and home organization is not a priority for you.

If you mostly got 3's: You Are A Clutter Bug!

You have many items in your home and like to collect things. You know you have certain items but not sure where they are at any given time. It takes you a few minutes to find your keys and sunglasses most days but this doesn't bother you, the hunt is just part of the routine. You have many piles of papers that may or may not be important. Your junk drawer is so full you cannot fit anything else in it, in fact most of your drawers could be considered a junk drawer. You leave things where you finished using them and not back to a specific spot to store it. Clutter has taken over and you are not sure where to start not sure you even want to.
